- .Do not expose the headset or any of its supplied parts to rain or other liquids

4.3 有效距离及电磁兼容性 **operation range and interfering**

- 本耳机的最大工作范围为 10 米。注意：无绳电话和无线联网设备等电器可能会干扰通话,为了减轻干扰,请让耳机远离这些设备。本耳机不会干扰其它消费类电子设备。
- The operation range is about 10m. pairing a unique link between

Bluetooth and phone. Please keep away from the wireless devices when you are calling, it will not interfere with any other electric equipments .

***** Caution *****

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes of modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC statement

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
